

# Scandinavian LIFESTYLE

**Embracing comfort, calmness and aesthetic beauty with respect for nature and materials, Scandinavian lifestyle is the perfect long-term trend for today.**

There is an honesty and elegant simplicity in its approach, which is more in tune with the natural world. Manifested in clean lines, simple, well-proportioned, sculptural shapes, and beautiful tactile surfaces. There is a deep respect for nature and the planet, with 'Design for a lifetime' embodied in all ranges.

STEELITE PERFORMANCE *nordic*

The Nordic region has become synonymous with Chef’s skills in developing dishes utilising the very best local ingredients and presenting them in a sensitive and contemporary manner.

Such an essential culinary aesthetic deserves its own platform, and the new Nordic range encompasses these shared design values. The simple but sophisticated plate profiles allow Chef the space to present dishes that can ‘breathe’ while simultaneously being framed by a deep, gently curving rim. This enables the ultimate showcasing of some of the most innovative and influential cuisine.

STEELITE PERFORMANCE *liv*

LiV is all about how we live our lives today. City life is fast-paced, time-challenged, and busy, yet we still crave the “new” and are ever hungry for fresh and invigorating experiences. Continually fresh ideas and innovation promote an ever-changing approach to new combinations of tastes, textures, and presentation. LiV is edgy, fun, casual, and creative. It encourages a streetwise approach to food presentation while being super-easy to use in space-constrained and busy environments.

STEELITE PERFORMANCE *bead*

*crisp, timeless, and elegant styling*

Bead defines a classic approach to dining, one which embodies best practice for back-of-the-house ease-of-use while delivering beautifully presented dishes to delighted diners. This range consists of two elements: Bead and Bead Accents, which can be mixed for a personalised collection. A classic linear design is carried across the main collection of Bead items, while the Bead Accents component offers an alternative decorative style to key presentation items alongside the classic iteration. The Bead Accents decoration provides a contemporary element that adds texture and visual excitement.

Plate  
**X0100** 30.0cm (11¾")

Fits X0111

*bead accent*

STEELITE PERFORMANCE *bead wash*

The addition of a hand-applied wash of colour to the Bead range provides a subtle but refreshing accent. This softens the look and adds a casual approach to the way Bead presents food. Classic, timeless, and perfectly proportioned, the Bead range takes on a Scandinavian feel in either the truffle or sage colourways and works brilliantly in either a traditional or contemporary setting.

STEELITE PERFORMANCE *vesuvius*

*exciting & unique; no two pieces alike*

The Vesuvius range is a collection of stunning reactive glazes, including Amber, Lapis, Burnt Emerald, and Rose Quartz. Taking their names from some of nature's more precious materials, these glazes complement and contrast with each other and provide a rich and exciting platform for today's eclectic and diverse menus.

Due to the unique hand decorated design of this range each item will be slightly different in colour and texture.

STEELITE PERFORMANCE *aurora vesuvius*

**tone-on-tone**  
Aurora Vesuvius is about tone-on-tone. This is achieved by using the same glaze hue on each piece. Vesuvius Emerald is used in combination with Revolution Jade, Lapis with Bluestone, and Amber with Sandstone.

# What Sets Us Apart

The Steelite International Lifetime Edge-Chip Warranty is your assurance that all products manufactured in our UK factory are fit for purpose. This commitment to quality excellence ultimately results in product that you will replace less often – great for your kitchen, great for your long-term costs, and great for the environment.

Our Alumina Vitrified clay body offers our customers the opportunity to purchase sleek and elegant pieces with the security of durability and lasting product excellence. All Performance and Distinction products are made with high alumina content to ensure ultimate strength. 100% Vitrified Ceramics prevent crazing and cracking that lead to bacterial ingress over time, thus enhancing sanitation and food safety efforts.

Each piece is inspected, examined, and tested so you can be confident it will withstand the rigours of the modern commercial kitchen and remain chip-free.

 **Secure Handle Adhesion**  
Every time you serve a customer with a Performance or Distinction cup or mug, relax in the confidence that the handle has gone through 7 different quality checks to ensure it stays where it belongs – on the cup!

 **Stackability**  
Stackable shapes result in space-saving solutions!

 **Microwave & Freezer Safe**  
Our products offer complete versatility. However you work, be confident our products work with you.

 **Thermal Shock Resistance**  
Performance and Distinction products withstand temperature fluctuations of up to 350°F. Work with our products and work with confidence.

 **Heat & Chill Retention**  
Piping hot main course or ice-chilled desserts, serve your food as it is meant to be served.

 **Stain Resistance**  
All products have great stain resistance, which means you can work comfortably with any food time and time again... without leaving a trace.

 **Glaze Damage Resistance**  
Durable transparent glaze provides an excellent quality finish and great performance in service.

 **Dishwasher Safe**  
Our products withstand the dishwasher better than most by enduring the rigours of the food service industry wash after wash.

*plaster*

Waste plaster moulds are recycled into plaster board material for the building industry.  
**822 TONNES RECYCLED IN 2019**

*water*

Capturing process waste and re-introducing it back into our products saves on waste leaving site, reducing our impact on the environment

*wood*

Scrap wood from the site goes to a wood chip plant which turns the waste into chipboard for the building industry  
**54 TONNES RECYCLED IN 2019**

*refractory waste*

Refractory waste (broken kiln furniture) is introduced as an aggregate used by several industries

*paper*

By using Woodland Trust printer paper, **we have helped to fund 1.86 hectares of new native UK woodland** during 2019, to capture **743 tonnes of CO<sub>2</sub>**

*clay*

The introduction of our Lamella machine in 2007 now allows us to recycle clay waste in water. This **allows us to produce 15,000 cups and saucers every year with the clay waste extracted**

*energy*

We monitor energy usage and monitor yield, paying particular attention to the amount of product we put into our kilns as poor kiln fill would lead to waste energy

*less than 1% can't be recycled*

The only waste that leaves our site destined for landfill is waste ceramic fibres as it is hazardous and has no other use. Less than 1% of our total waste by weight or volume goes down this route

# Zero Waste Manufacturing

Steelite International work closely with a number of suppliers and organisations, and are continually monitoring, developing and improving procedures to create minimum impact on the community and environment, while ensuring maximum efficiency and cost savings for the future sustainability of the business.

Steelite International is a member of The Green Organisation that rewards and promotes environmental best practice around the world, and the Staffordshire Business & Environmental Network, which aims to help local businesses reduce environmental impacts while also generating profits.

We have a dedicated and innovative approach to caring for the environment. In 2019 Steelite were awarded an engineering gold Green Apple Award for the implementation of a waste water centrifuge system.

Our new centrifuge system works by spinning waste material out of waste water at very high speed, the water is separated from waste glaze and then reclaimed saving around 20 cubic metres of water per day. This has dramatically improved the quality of waste water that does leave site. A part from significantly reducing water, it saves glaze and lowers energy usage on site too.

In 2007, the business became one of only five companies in the UK to install a Lamella system. Steelite is the only tableware manufacturer to use a Lamella system for recycling clay waste.

In addition to clay recycling, fewer chemicals are now required to separate waste. This has a positive effect on the environment and water discharged from the site is also purer.

The Lamella has significantly reduced Steelite International's impact on the environment. The company now recycles in excess of 99% of manufacturing waste. In 2010 we received a Green Apple Award for the Lamella project.
