Maham is a designer specialising in ceramics for chefs and restaurants. She has worked with the design group Queensberry Hunt for over 15 years on various design projects as well as working as an independent designer for retailers, factories and restaurants. For the Spice range Steelite and Maham explored the qualities of the unglazed outside and glazed inside, using a range of glaze effects - coloured and neutrals/semi matt and mottled. The range includes items not just for restaurants and hotels but also includes items for small bites/short eats and bar food. It mixes well with Craft, Brown Dapple, Robert Gordon and Anfora.

NEW FOLIO azores

tastefully organic stoneware

Reminiscent of the dramatic landscapes and natural beauty of the Azores Islands of Portugal, the Folio Azores collection is comprised of tastefully organic stoneware. With graceful yet irregular shaped edges, Azores emulates the look of authentic, hand-thrown stoneware, designed specifically for casual dining and small bites. The reactive hand-applied glaze colours, are aptly named and inspired by the harmonious scenery of their namesake islands.

handmade & organic appeal

Forager by Robert Gordon is designed with a carefully applied reactive glaze that free-flows over each shape to create a unique finish that is different on every piece. Featuring an unglazed bottom, this collection highlights the richness of raw materials through exposed stoneware and offers a handmade & organic appeal. From the creator himself, Robert "Andy" Gordon, he compares the signature tray design to "tree bark once used to gather things such as forage seeds, berries, and roots from the forest", hence its namesake, Forager. Unlike any other, these enduring & functional shapes are finished with a stamp of Andy's handwritten signature and will enhance any foodservice presentation.

natural and eclectic

The new Adelaide Collection from Robert Gordon consists of a distinct reactive glaze finish on uniquely embossed porcelain plates, bowls, trays and accessories. Birch, with its crackled glaze effect is fired three times in order to achieve the glossy translucent, creamy white glaze with the natural clay body showing underneath.

unique natural extraordinary

The Potters Collection by Robert Gordon includes an exciting and informal assortment of embossed plates, platters, bowls and accessories in two unique colours: Pier and Storm. Each colour has a distinct finish that is stunning on its own or can be beautifully mixed to create an unforgettable tabletop. The reactive glazes ensure that no two pieces of this Australian-designed porcelain will be exactly alike.

The stacking plates and bowl are great for stacking back of house, or serving stacked sharers to tables, these trendy straight sided round trays make the most of the plating surface, perfect for every presentation.

profiles in elegance

Essence is a new shape in porcelain designed by Rene Ozorio. The collection of rimmed presentation and banquet plates, coupes, trays, and bowls provide a clean, modern look for tabletops and food presentation.

For Rene Ozorio, Essence signifies “the return to the pure nature of white porcelain in a shape whose sculptural simplicity speaks of modernity.” The thin, elegant profile provides a light & contemporary product that is durable and ideal for hotels & restaurants.

“in praise of shadows” ~Jun’ichiro Tanizaki

Atelier: the name evokes the hand of craftsmen and the tradition of artisanal fabrication. The realisation of this fluid optical design was through the collaboration with artisans, who hand carved the models for each piece. The calculation of the embossment and the glazing produces an effect of ebbing water in the tide pools. Designed with fine dining in mind, the lightness in weight and porcelain colour speak of quality and craftsmanship.

“Atelier is inspired by nature, light and shadows. I was reminded of the days by the sea, watching the changes in the sand & pools of water brought by the ebb & flow of the tides. The element of water in motion.” ~ Rene Ozorio
